AZALEA INDICA.

The yearly increasing demand from my customers has necessitated a large increase of the culture of Azalea Indica and this year I have a grand selection, containing over **seventy thousand plants,** thus enabling me to offer special inducements to my friends and patrons to place their orders with me. **Azalea Indica** are never kept in stock by me, but only sold on import orders, October delivery. **It is of great importance to place your orders early in the summer, in order to procure the varieties desired. Only the leading and most desirable sorts have been cultivated,** such as command a commercial value to the grower. Orders for Azaleas will be filled from the varieties named. As far as possible, the sorts selected by my customers will be furnished, but I shall retain the privilege to substitute other equally good varieties to complete the order, if the sorts called for are sold out. Orders will be filled in rotation—"first come, first served." It will, therefore, be to the interest of intending buyers to **order early.** At the prices stated, the plants will be **delivered in New York,** including all expenses for ocean freight, shipping charges, insurance, custom-house entry, duties, etc. This avoids for my customers all the annoyance and delay of importing.

Put up in lots of 50, 100, or more.
